

PROFILE

Born and raised in central Ohio, I grew up to be a dependable and hardworking individual with an eagerness to learn new skills. I strive to be a reliable worker that my managers/supervisors can depend on and that has gotten me to where I am today.

My future hope is to find a position where I can work closely with someone and hone the skills that I learned in my coding bootcamp. There are areas I'm not confident in yet and I know there is still much to learn, but I'm looking forward to it.
